The Bulletin.

NEWS OF THE CITY.

Ventilated hats in entirely new styles—the most comfortable and delightful hat ever worn, at Jno. Antrim's.

MARSHAL RAMBEMICK is thinning out the dogs at the rate of two or three dozen a day. We wouldn't give two cents for day dog he catches on the street, without its tax tab.

T. M. C. A. The Young Men's Christian Association hold their regular monthly meeting at the Presbyterian Church, Monday evening next. The exercises will consist of reports of committees, miscellaneous business, singing, reading and debate. A cordial invitation is extended to all to attend. june 21.

A new supply of Calf Boots and Guitars just received at P. Neff's, No. 50 Ohio Levee.

The Democracy of the neighboring county of Hickman, Kentucky, have adopted the primary election system, and will hold their primary election for candidates for the county offices, on Saturday, July 2nd. The county is Democratic, notwithstanding the sombre political complexion of Columbus, and she will no doubt elect herself in August.

A SCIENTIFIC WONDER.

The Craig Microscope adapted to popular and scientific use. Read the advertisement. Price, \$2.75. m27dsm.

SAYLOR THERE.

We see by the *Gate City* of the 9th instant that the Fanny Brandies, with her tow of timber, has arrived safely at Keokuk. The timber, it will be recollect, is the same that was prepared under the superintendence of Col. Roeden for the improvements on the Rapids. The Colonel will probably reach home early next week.

DIED.

Charles Pendleton, infant son of John and Nettie Brown, died yesterday afternoon, of congestion of the bowels—aged 6 months and 7 days. The remains were taken to Jonestown for burial by the train this morning.

The community sincerely sympathize with Mr. and Mrs. Brown in the loss of their first-born—a bright and promising child, and the very light of the household.

W. W. Thornton, No 13 Thornton's block, Tenth street, has just received three hundred boxes of glass, varying in size from \$10 to \$30x40. For sale, wholesale or retail.

CAIRO AND VINCENNES RAILROAD.

We have very encouraging intimations concerning the progress of negotiations that look to the resumption of work on the Cairo and Vincennes railroad. The interval, since the suspension of work, has been actively employed by General Barnside and it is believed, now, that he has an arrangement that will insure the completion of the project, on the very eve of consummation.

The friends of the road need wait only a little longer.

LOOK TO YOUR INTEREST, and buy your clothing from Walder, corner 6th Street and Levee.

COMING TO IT.

Our Shawneetown neighbors have grown tired of their periodical duckings, and are now casting about for means wherewith to build a levee. A proposition to issue \$50,000 city bonds for that purpose, was carried, last Monday, by an almost unanimous vote.

If Paducah would act with like good sense she would rescue the Herald editor from the ridicule that is so richly earned by his habit of writing homilies on "poor, water-worn Cairo" at times when the drift-wood is knocking the sash out of his third story windows, and Cairo is as dry as the throat of a Louisville editor, forty minutes after "licker."

Youths' boys and Children's clothes, a less than New York prices, will be sold this week, at P. Neff's, regardless of cost.

BEAR IN MIND.

That MISHLER'S HERB BITTERS is skillfully compounded, free from injurious component parts, agreeable to the taste, and destructive to disease. If you detect any change from the natural functions of your system, no matter how trivial, or when located, or if disease has already entrenched itself, the really true and reliable remedy in either case is MISHLER'S HERB BITTERS. This assertion is based upon what we know it will do in relieving, curing, and warding off disease. For want of space we cannot detail the diversified uses of this Bitters, but its general effects upon the human system are to purify the blood and secretions; correct morbid changes in the blood, equalize its circulation, enrich its constituents and regulate its supply; it imparts vitality and elasticity to every organ; overcomes all functional derangements; assists in the process of digestion creates a healthy appetite; prevents and cures miasmatic and intermitting fevers, dyspepsia, liver complaint, nervous headache, kidney affection, and revives the physical energies by infusing new life and power into the system.

AVERT THE EVIL.

If mothers would give Mrs. Whitecomb's Syrup to their children when sick, mortality would be less among them. It costs only 25 cents.

ACRES OF CORN PILES.

A CAIRO BUSINESS HOUSE.

Very few citizens of Cairo appreciate the extent of our produce business, and a still lesser number, the magnitude of the stock carried by Messrs. Halliday Brothers.

In company with a Radical office-seeker (we had no money about us to tempt him to violence) we passed through the immense warehouses of the "Brothers," the other day, and were actually astonished at the immense piles of corn and oats, in sacks; flour and salt, in barrels; hams, bacon, gummy bags, etc. We had no idea that such vast quantities of the articles named could be found in the entire city. There were four floors, each presenting an area of about 16,000 square feet. All this vast space was filled ten feet high with corn, oats, flour, salt, etc. As a rough guess, we will say that the stock then on hand would weigh ten or twelve thousand tons. This, it is remembered, formed the firm's stock in trade. Not a pound of it was in their hands by virtue of their character as forwarders.

THE CONCERT MONDAY NIGHT.

The Singing Club of the Cairo Turner Society deserve a good house, Monday night, because, in the first place, they are vocalists of considerable merit; because, secondly, their society is a local organization, and because, thirdly, the object of the concert is to replenish the fund which is held sacred for the relief of destitute members of the organization—widows and orphans.

Bear these facts in mind, and enter an appearance for yourself, family or sweet-heart, in Philharmonic Hall on Monday evening next.

GO to Peter Neff's if you want a stylish Summer hat, clothing to suit the season, or anything in the line of gents' furnishing goods, fully ten per cent. cheaper than the same articles were ever offered in this market.

AN INDIVIDUAL who claims to be the owner of one hundred and eighty acres of land, lying back of Cape Girardeau, visited a saloon kept by a colored man named Scott, last night, and demanded himself in a manner that may subject him to severe punishment. He entered the saloon with revolver in hand; ran the inmates, including the proprietor out of the room, then composing himself upon a row of seats, went to sleep. While he was thus in the embrace of Morphus, a brace of police relieved him of his revolver and took him under arrest.

At the moment of waking-up he felt disposed to resist, but finding that, in the possession of his revolver, the police held four nos., he concluded that it was a game where the odds were decidedly against him. While he was thus in the embrace of Morphus, a brace of police relieved him of his revolver and took him under arrest.

LIEUT. GOV. DOUGHERTY was in the city to-day, forwarding the effort to establish a Radical paper in the neighboring town of Anna. The material was forwarded by this evening's freight train, and the first number of the paper will probably make its appearance about the 25th instant.

Mr. George Dougherty, son of the Governor, will assume control of the office. We wish him, in advance, great success financially.

Politically, we will excuse us if we invoke confusion upon his every effort.

MR. H. S. ENGLISH has accepted the position of principal of our public schools, tendered by our board of Directors. The salary fixed is \$2,000 for the scholastic year.

EIGHT of the old assistant teachers have been re-employed, leaving only two vacancies to fill.

A NEW YORK preacher says that "no man who uses spirituous liquors can get to heaven." Of course he meant such execrable poison as is retailed in the Empire City. In view of the undeniable excellence of the old whiskies, pure brandies, sparkling wines, and creamy ales sold by Pat Fitzgerald, of the Sun Flower saloon, no Cairo preacher has ever ventured a like declaration. Indeed, we have heard men say that everybody who patronizes Pat's beverages is immediately possessed of a serenity of soul, a Christian fortitude and resignation, that make this mundane sphere of ours a good heaven as he cares about. That everybody may share in this felicity Pat has fixed the price of his incomparable Cincinnati lager beer at 5 cents a glass, and everything else at half what it really is worth.

POLICE BUSINESS.

The police business before "Squire Shannoy, to-day, consisted of two cases of drunkenness. On one was that of a Southern gentleman, who didn't know how to gauge Cairo whisky to his powers of endurance, and fell. He had no money; was very sorry; felt about half sick and wholly ashamed, and was in a bad condition generally. The "squire" told him to go and sin no more. The second case was that of a female. She had been "woshing drunk" and felt very wretched. If the "squire" would excuse her, she'd behave her self, "if she died for it." The "squire" excused her, and so ended the day's business.

THE benefit to young Gilhofer by the Young Men's Dramatic association was not a success financially. This result may be ascribed to the fact that the festival, by the Church of the Redeemer, was held on the same evening and commanded the presence of a large number of the patrons of the drama.

A number of our leading citizens, regretting the result of the "benefit" ask for a repetition of the entertainment, promising to make it a success. The request will no doubt be complied with, and the "benefit" named for some night during the coming week.

A WONDERFUL MICROSCOPE.

Rev. Daniel Wise, D. D., editor of the New York Sunday School *Advocate*, speaks of the celebrated Craig Microscope:

"It simplicity, cheapness and great magnifying power struck me with surprise. Then I was examining a fly's eye by its side, and was struck with wonder at the skill and power of the Creator which is displayed in its structure. When I saw a statement in an advertisement that the Craig Microscope magnified one hundred diameters, and could be bought for \$2.50, I thought it was one of the humbugs of the hour, for I had paid \$20 for a microscope not long before.

THE Craig Microscope is unsurpassed, being ornamental, instructive, amusing and cheap, and never loses its interest.
